*Air conditioner and heat pump ratings are based on U.S. government standard tests of the models combined with a matching indoor coil. Efficiency ratings may vary with different coils. Similarly, efficiency ratings may vary when combined with different furnaces. This Certification was issued to taxpayer in reliance upon representations made by taxpayer regarding the product purchased and, where applicable, the combination of such product with the proper coil and/or furnace.

**The XPG20-036 heat pump utilizes energy from a solar installation. The tax credit calculation for the XPG20-036 heat pump unit excludes the cost of the solar panel component.
